The Blue Angel is an environmental label organised by the federal government of Germany for the protection of people and the environment.

S-Pro P MDF can be bought with a SWAN label. The Nordic Swan Ecolabel is the official Nordic Ecolabel since 1989. The Nordic Swan Ecolabel is a tool to help consumers choose environmentally-sound products.

The California Air Resources Board issued in 2009 a first regulation concerning composite wood products. Meanwhile, this regulation has been regularly adapted and the CARB NAF regulation is nowadays the most recognized and strict certification in the world. The U.S. Environmental Protection Agency is developing a national regulation based on California's regulation, which is expected to be in effect soon.
